NEW FOR FALL: GLÖ MINERALS

CREAM STAY SHADOW STICK

"glö minerals launched 4 new Cream Stay Shadow shades, which have major color payoff and last you literally all day long. Get out the micellar water or makeup wipes ladies, because a little face wash and water won't make these colors budge."

PRECISE MICRO BROWLINER

"Those flawless brow/contour/eyeshadow looks that you see all over Instagram and that look like something you would never be able to recreate yourself without years of practice/tons of \$\$\$? Well, glö minerals' new fall offerings make it easy."

CONTOUR KIT

"My favorite product from glö minerals' collection: the Contour Kit, which comes in two different sets (fair/light and medium/dark), and boasts has 4 colors: two darker ones for contouring and two for highlighting."
