CALMING SEAWEED MASK

“Marshmallow root is known as a skin-conditioning and healing agent—it helps relieve redness and irritation and also possesses emollient properties to soften and moisturize the skin... Marshmallow root extract can be incorporated into a wide variety of formulations, adding anti-inflammatory relief to any skincare product.”

- Anna De La Cruz, Director of Brand Development

10% GLYCOLIC CREAM

“10% Glycolic Cream relies on glycolic acid, sweet almond oil, and green tea extract to soften the appearance of fine lines and refine pores.”
