

DERMASCOPE MAGAZINE

AESTHETICALLY PLEASING

"Clients must be mindful of their skin type and be sure to utilize a gentle cleansing formulation to avoid disrupting the acid mantle. When harsh cleansing products, such as bar soap, are utilized, the acid mantle is temporarily dissolved. Clients should use glycerin bars or products formulated with glycerin."

Ahmed Abdullah, M.D., founder and CEO of Lexli International, Inc.

- 27** Gentle Cream Cleanser by Glō Therapeutics thoroughly removes makeup, excess oil, and debris while respecting the natural moisture balance of sensitive skin. 800-232-0398 or gloprofessional.com
