

5 BEAUTY TREATS TO CURE WINTER BLAHS

CREAM GLAZE & SUEDE MATTE CRAYONS

“Pucker up for a big, melty kiss from glō minerals. The Denver-based company's Cream Glaze Crayons [Suede Matte Crayons], \$16 each, will make you smile. I favored "bombshell," a rosy-red that is brighter than I usually wear. The supple texture felt great, and the shiny, saturated color perked up my face and my predominately black-and-gray winter wardrobe. I also tried samples of "bloom" and "sorbet," shades of medium pink that I would not have chosen on my own, and found them surprisingly appealing. So, take a chance on a new color: Other hues include "chiffon," a neutral that would work with any skin color; "dahlia," a sophisticated pink; and "jet set," a hot-red that would look especially good on deep skin tones.”
