

GLO SKIN BEAUTY'S DAILY POWER C+

DAILY POWER C

“Daily Power C+ is a daily antioxidant and environmental protection serum with short- and long-term age-fighting benefits. Formulated with over 20% vitamin C, Et-VC (ethyl ascorbic acid), ascorbyl glucoside and L-ascorbic acid, the serum helps strengthen, protect and firm the skin. Ideal for dry and mature skin types, including those with light sensitivity, the stabilized formula provides a longer shelf life without oxidation issues of traditional vitamin C serums.”
