NATURAL GLOW
This look is all about radiant, glowing skin! To achieve this look focus first on prepping the skin with plenty of hydrating oil to ensure a dewy complexion. Apply a sheer layer of liquid foundation with a blending brush and set only under eyes with loose powder and a pointed brush to lock foundation into place. Enhance your sun-kissed glow with powder bronzer and a generous amount of loose highlighter. Complement this look with soft definition on eyes, brows, and lips. Apply scarfy eyeshadow shades to the eyes for a soft, bronzy eye look. Brush a tinted gel through brows for a natural brow that lasts all day. Amp up this look with lip gloss in the sand/mauve shade; mist the face with dewy setting spray to hydrate and enhance your glow! Lightly dust loose highlighter onto décolletage for an all-over glow!

BOLD EYES
Festival season is the perfect excuse to play with color! To achieve this stunning pink, smoky eye, start by smudging a cream color in a winged liner shape along the lash line using a shader brush. Blend a matte crimson shade on the lid and through the crease with a diffuser brush and finish with a coat of mascara. The eyes are the star of the show in this look, so keep the rest of the look soft. First apply liquid foundation all over with a blending brush and then use a slightly lighter shade under the eyes for a brightening effect. Sculpt and define cheekbones with a powder contour kit and a blush brush. Highlight high points of the face with a powder highlighter. Brush a tinted gel through the brows and set with a clear one for natural, effortless brows that last all day. Finish the look with a light layer of lip gloss in a dark taupe shade.
